## Professional Summary

Versatile Software Developer with a strong foundation in JavaScript, Node.js, Python, and SQL. Combines over a decade of IT Systems Administration experience with modern full-stack development skills. Experienced in collaborating with Agile teams to deliver robust, maintainable software and optimize system performance. Skilled at bridging technical support and software deployment to enhance user experience and operational uptime.

## Technical Skills

- **Languages:** JavaScript (ES6+), Python, Java, C#, PHP, HTML5, CSS3
  - **Frameworks/Libraries:** React, Node.js, Express.js, Tailwind CSS, Bootstrap
  - **Databases & Cloud:** MySQL, PostgreSQL, Firebase, AWS (Cloud Practitioner Essentials), Google Cloud
  - **Tools & Methodologies:** Git/GitHub, Agile/Scrum, REST APIs, Postman, Unit Testing, MS-O365
- 

## Software Development Projects

### 1. CYFOverflow – Q&A Web Application | *JavaScript, React, Node.js, PostgreSQL*

- Developed a full-stack Q&A platform enabling users to post, answer, and vote on technical questions.
- Implemented **RESTful APIs** for real-time data fetching and dynamic DOM rendering.
- Built a mobile-first, accessible UI following **WCAG guidelines** to ensure inclusivity.

## Professional Experience

### Software & Application Support Specialist:

**Torga Optical Lens Manufacturing** | Cape Town, SA | 2020 – Present

- Developer Collaboration: Serve as the primary liaison for external developers, assisting in feature development and bug fixing for core proprietary systems.
- QA & Deployment: Manage deployment testing and release cycles for updates across 170+ branches, ensuring zero-downtime transitions.
- Bug Tracking: Systematically document and reproduce software errors, reducing the "time-to-fix" for critical bugs by collaborating closely with the engineering team.
- Partnered with marketing to integrate digital content tools, increasing customer engagement by 30%.

## IT Support Technician:

**Torga Optical Lens Manufacturing** | Cape Town, SA | 2020 – Present

- Maintain and troubleshoot 18+ complex IT systems, ensuring 99.9% system uptime.
  - Developed and delivered technical training programs for staff, leading to a 30% reduction in support tickets.
- 

## Education & Certifications

### Education & Certifications

- **BSc (Hons) Computer Engineering Degree** | Zimbabwe Open University  
(Current Year 3 - Expected Graduation 2027)
  - **Software Development Course** | CodeYourFuture
  - **CS50's Introduction to Python** | Harvard University
  - **AWS Cloud Practitioner Essentials** | Amazon Web Services
  - **Responsive Web Design** | FreeCodeCamp
-
